Software Engineer - II with 2+ years of experience building scalable backend systems, SaaS applications, and OTT platforms. Proficient in Node.js, TypeScript, Next.js, MySQL, Redis, and ClickHouse, with hands-on experience in API optimization, caching, payment integrations, and AI-powered applications.

Work Experience

- TV2Z, Software Engineer - II**  01/2026 – Present
Hyderabad
OTT streaming platform: Node.js, MySQL, Redis, Laravel
- Built the platform's search and suggestion system from scratch.
- Replaced full S3 EPG file downloads with an API that returns only the requested channels and time window, cutting download time.
- Traced EPG API slowness to dropped connections (~200 ms per request vs ~68 ms of app work) and fixed connection reuse across Node, nginx and CloudFront.
- Built Continue Watching and user access control for subscriptions and bundles.
- Redesigned how content is set up by region in the admin CMS, across 10+ modules.
- Built media library (DAM) integration for importing channels and collections.
- Brochill (50M+ Downloads), Full Stack Developer**  01/2025 – 12/2025
Hyderabad
Tech Stack: Node.js, Next.js, Vue.js, MySQL, ClickHouse, Redis, MongoDB, Google Play Billing, Docker
- Architected backend for a 50M+ download app using MySQL, Redis and MongoDB
- Improved creator and admin panels for faster content management
- Added Razorpay billing alongside Google Play Billing, giving users a payment choice
- Telugu Labs (Brochill), Full Stack Developer**  05/2024 – 12/2024
Hyderabad
Tech Stack: Next.js, Node.js, Redis, ClickHouse, MySQL, Kafka, R2
Led development of two major SaaS projects: EngageON and Tellow.AI 
- Architected event-driven apps with Redis, ClickHouse, MySQL and Kafka
- Built reusable AI image/video components, making model integration 50% faster
- Eveez, Full Stack Developer Intern**  01/2024 – 04/2024
Remote
Tech Stack: Next.js, Node.js, SQL, MongoDB, AWS S3, Tailwind CSS
- Built a Recovery Tracker app with live vehicle tracking and AWS S3 image uploads

Projects & Additional Experience

- StillDiscount.com - Offers & Coupon codes** 
Tech Stack: Next.js, Node.js, MySQL, Redis, ClickHouse, n8n
- Coupon platform that helped 185,000+ learners enroll free; Redis caching cut page loads by 40%
- Automated workflows with n8n, cutting manual work by 90%
- Abnormal Event Detection on Pathway Using YOLOv8** 
Tech Stack: YOLOv8, Python, Flask, OpenCV, Cloudinary
- Real-time system that detects accidents, fights and chain snatching from live video
- Automatically records detected events, stores clips on Cloudinary and alerts authorities through a Flask dashboard

Skills

Languages: JavaScript, TypeScript, Python, Java | **Frontend:** Next.js, Vue.js, React, Tailwind CSS |
Backend: Node.js, Express.js, RESTful APIs | **Databases:** MySQL, MongoDB, Redis, ClickHouse |
Cloud/DevOps: AWS, Cloudflare R2, Docker, Git | **Tools:** Apache Kafka, n8n, Google Play Billing, Razorpay, WordPress | **AI/ML:** Image/Video Generation, AI Model Integration, YOLO

Education

Bachelor of Technology: Computer Science (Artificial Intelligence & Machine Learning), MLR Institute of Technology - CGPA: 7.69 / 10.00 2021 – 2024
Hyderabad
